DAILY BULLETIN.

Pledged to neither Sect nor Party, But Established for the Benefit of All.

THURSDAY, OCT. 12, 1893.

A little controversy sometimes stirs up a great deal of history that would otherwise lie concealed.

In the opinion of our evening annexation contemporary the morning paper is no good. Rather rough on lows: Star is bound to tell the truth when it's not against itself.

Our morning contemporary's coach to the chancellor of the exchequer says that since the Provisional Government "has been in power it has paid off the public indebtedness to almost the last cent and still has a surplus on hand, no matter what its opponents may say to the contrary." Never mind what its opponents may say. Suppose instead you tackle the official statement of the Minister of Finance (see weekly financial statement of this date), which states that the net indebtedness of the country is nearly four million dollars.

In answer to a communication from the Minister of the Interior, the Board of Health states that the rules requiring the port physician to precede the pilot, in boarding an incoming ship, were suspended on November 24 last. The provision of the Civil Code governing the pilot's action makes it his duty to immedistely put off to the vessel, and ascertain for himself if any contagious disease be on board before boarding her. These facts wipe out all excuses lately heard for the slow coach methods of our pilotage

"From all that can be at present learned it seems the fight for annexation is to take place at this end of the line. The fight at the other end has already been fought. The question now is to which of the powers shall Hawaii fall." In the foregoing words the morning organ of the Provisional Government as much as intimates that information has been received that the annexation scheme is dead as a door nail at Washington. As to the closing statement of what the "question" is, the Advertiser is hardly qualified to give an opinion. If the United States has decided against robbing Hawaii of its antonomy, there is no fear that Hawaii shall "fall" to any power. She shall stand, as she has done the past fifty years, with the kindly support of several powers-that of the

WHY THE RUSSIAN FLAG WAS NOT SALUTED.

On the 2d inst. this paper announced that the Russian flag was receipt of communication proffering to be saluted that evening by the Provisional Government battery, in of despatching the S. S. Australia grateful return for the unqualified recognition by the Russian Government of the "Hawaiian Republic"as M. de Giers, the Russian Chan- for all its consideration and aid in cellor, called it. It grieves us at this remote date to have to contradict the announcement of the salute in question. Although it was true when it was made—our information having been obtained at headquarters-a fatal hitch occurred in the arrangements. Thus: The Provisional Government in a qualm of had ordered the August bills paid, self-abnegation thought fit at the and only the bills for September resixteenth hour of the day to consult | call attention of the Councils to the the United States Admiral on the irregularity prevailing in the matter propriety of marking its recognition by the Russian bear with such jubilating roar of cannon—Austrian canlet resolution was to the effect that non at that, although they probably each head of a department should wouldn't have told this to the Czar. designate some one of his clerks to "Well," the Admiral said in effect, "I don't see much harm in shooting off your gleeful gratitude. But, my the purpose, no advertising bills to dear fellows, really international etiquette doesn't require that sort of acknowledgment of diplomatic courtesy." At all events, what the consideration of the printing com-Admiral said convinced our inexperi- mittee. enced rulers that perhaps after all they would only make themselves tion. All printing and advertising absurd by shooting off their brass mouths in republican ecstasy over General's staff, he noticed that there being noticed by the most absolute was a difference sometimes amountmonarchy in Christendom. They ing to 75 percent between bills from would just use the Chancellor's collector of one was shown the lower rate of another paper, he would say that was all right and ly evince their devoted gratitude make it the same as the other. to Russia for her imperial nod by means of a gilt-edged note, composed by their most expert diplomatic scribe and written in the finest flourishes of Mr. Ed. Stiles' artistic calligraphy. For the salute to the Russian flag was coun- should be held at Wailuku. He

PROVISIONAL LEGISLATURE.

Regular General Session of the Executive and Advisory Councils.

This afternoon at 1:45 the Executive and Advisory Councils were called to order by acting President Hatch, with whom were present: Ministers King, Damon and Smith; Councillors Ena, Waterhouse, Allen, Emmeluth, Bolte, Morgan, Nott, Young, Tenney, Suhr and Brown.

Dr. Rodgers, secretary, read the minutes of last regular, and a special meeting, which were approved. Minister Damon presented

weekly financial statement as folits annexation running mate, but the Financial Statement for the WEER ENDING OCTOBER 11, 1893.

The financial statement was ac-

cepted and placed on file. Minister Damon read a letter from Theo. H. Davies & Co., agents Canadian-Australian Line, acknowledging an advance of one-half of expense three days in advance of regular time. The firm return their deepest thanks to the Government for the assistance in question, as well as connection with the stranding of the S. S. Miowera.

Minister Damon then read a report of Mr. J. M. Oat, Postmaster-General, on his official tour of Maui. He said Mr. Oat would leave for Hawaii on Friday to inspect the post offices and instruct postmas-

ters there as may be required. Minister Damon remarked that he mained to be paid. He would again of public printing and advertising. He had prepared a resolution which attend to all advertising in his department, and that all advertising be ordered on forms prepared for

be paid unless so ordered.

Mr. Waterhouse was glad the Minister of Finance had taken this mat-

Mr. Brown supported the resolushould be done by tender. When he was a member of the Attorney-Mr. Damon would hardly go so

far as to have all advertising done by tender. Let them make the proposed change for the present.

The resolution passed.

Minister Smith had a resolution regarding the place of holding the terms of the Second Judicial Circuit rest, have it franked "On P. G. Service," in a silk-lined envelope, but with a surcharged vermilion stamp with a surcharged vermilion stamp on it as a contribution to the phil- enacted that the June term be held at Wailuku and the December term atelic album of one of the young de at Lahaina. It was the prevailing Giers. Anyhow, the order for a opinion on Maui that both terms termanded. The facts leaking out presented a resolution that the prohave become a topic of gossip among priety of so altering the law as to have both terms held at Wailuku American naval officers as well as should be referred to the Judiciary

Committee. Carried.

Minister Smith extended an invitation from the President to the members of the Advisory Council, for as many as chose to be present in the council chamber at 11 o'clock to-morrow, when Captain Barker and officers of the U. S. S. Philadel-

phia would make an official call on the Ministers. Mr. Brown introduced an Act to amend the Oahu Railway Act of 1890, so as to extend the time for years; also to extend the franchise for the same railway fifty years from

the passage of this Act. Mr. Brown also introduced an act to authorize the Government to guarantee interest of four percent on \$900,000 of the railway company's

Both bills took the regular course. The crown lands bill was again

postponed. The bill to prevent the clipping of sheep's ears in marking was, after some discussion, referred to the Judiciary Committee. In the discussion other species of mutilating animals were referred to, Mr. Emmeluth telling of an instance he had seen at Koolau last Sunday.

The chairman gave notice to the special committee on Board of Education that the President desired them to meet him in his office at 10 o'clock to-morrow.

At 2:30 the Councils went into

executive session. Timely Confession.

EDITOR BULLETIN:-The Advertiser comes out this morning again with one of its bold lies, that the P. G. has "proved itself the friend of the people." This is correct of course if by "people" we are to understand only the infinitesimal number of the "family compact," who seized the government with American help and robbed the mass of the natives of all their rights, and who have since governed on the principle of "scratch my back and I'll scratch yours." Those Tiser's lies are not deserving of any notice; but what may be worthy of attention, are the confidential hints dropped about "complications that are now arising around Hawaii." We have long been expecting as much especially knowing what the policy of the P. G. has been, viz.: to force annexation on foreign help. The P. G. have been bent on annexation only in view of preserving themselves in power, and they thought that American jingoism would be only too glad to accede to their terms. But when they found that their calculations had miscarried, they evidently looked around to try to carry their threats measure to their long stay on shore at Honolulu and the many land drills they were called to take part in.—S. F. Call. into execution; and there cannot be any doubt, in the mind of any sensible man, that to their machinations is due, for one, the recognition by Russia. This move of the Russian Government—without waiting for the settlement of the matter pending before the U.S. Government—is certainly very extraordinary, and cannot be considered as anything else but a slight on America, and a decisive step towards further interference in the Hawaiian embroglio. And when the Advertiser this morning comes out with the naive confession that "the question now is to which of the powers shall Hawaii fall,

their eyes in time. ALPHA-OMEGA.

Result of a Slip in Landing the Mio-

Four large and heavy blades belonging to the spare propeller of the steamship Miowera were brought in by Commodore Simonson's steam scow this morning, each blade measuring 7 feet in length and weighing from one and a half to two tons apiece. Such massive weight requiring substantial hoisting apparatus, the transfer from the scow to the dray on the wharf was done with the aid of the steamer W. G. Hall. The transfer to the steamer was easily made, and then began the slinging of the burdens on to the dray. When the second blade was being lowered to the dray a sudden slack in one of the ropes caused the heavy iron to slide off one side of the dray, bringing along with it one of the teamsters, who landed on his hands and knees, but without receiving the slightest injury. This little incident, made ludicrous by the suddenness of its occurrence and the posture in which the teamster was thrown, afforded a few minutes' hearty laughter to the crowd of loungers present. Commodore Si-monson said that the fall of the teamster reminded him of the divers at the Miowera, going down hands and head foremost after coal.

MAKIKI PUMPING PLANT.

It Raises a Strong Head of Crystal Water.

The trial of the new Makiki pumping plant has proved more than satisfactory. Its capacity was tried yesterday afternoon, when Mr. Alex. Young, Manager Honolulu Iron Works, Minister King, Superintend-ent of Water Works Brown and others were present. The machinery worked very smoothly, and there was abundance of water. The suction on the well is equal to thirteen feet and reduces the natural head of the four hours. It is working to-day, throwing out bright crystal water of excellent taste.

COURT CHRONICLE.

Government Ejectment Suit and Other Matters.

Judge Cooper has been hearing, yesterday and to-day, the case o Jas. A. King (surgesting the death of C. N. Spencet), Minister of the Interior, vs. J. D. Spreekels Bros., of San Francisco: The plaintiff seeks to eject defendants from possession building the railway the rest of its of a lot on the east corner of Front route around the island for five and Waianuenue streets, Hilo. Carof a lot on the east corner of Front ter & Carter for plaintiff; Hatch for defendants.

Geo. W. Macfarlane has filed a motion in the Circuit Court for a postponement of foreclosure sale of 1190 shares of Waikapu stock, ad-vertised for the 18th inst., until the matters wherein he is interested with the Waikapu Sugar Company

be determined in the courts. The Justices of the Supreme Court have by will of the late King Lunalilo the supervision of his estate. They have unanimously approved the accounts of the trustees W. O. Smith, Mary S. Parker and Henry Waterhouse—with the exception of an overcharge of commissions amounting to one dollar, which they direct the trustees to surcharge themselves with in their next annual account.

TROTTING RACE.

Between Schuman's Mare and Hollinger's Stallion.

Kapiolani Park on Saturday between Gus. Schuman's imported pacing mare Martha S. and Tom Hollinger's stallion Charlie for a purse of \$250 a side. Both animals have been in training since the date when the match was made some time ago. Charlie is the stallion who defeated Macfarlane's Duke and is a fine piece of horseflesh. In Mr. Schuman's Martha S., Charlie will meet a Tartar and a good one too. Speculation is rife and there is every promise of a good race. The event, which will be best 3 in 5, will take place at 2 o'eloek.

"Tell it to the Marines."

The U.S. S. Boston has the best marine corps in the navy. By best is meant the best drilled, the finest looking and the most intelligent, their own terms through menace of The records of this small body of marine soldiery recently sent to the Naval Department at Washington demonstrate this. Lieutenant Draper is the officer in command, and the efficiency of his men is due in a

Socretary

With the resources provided Hawaii by nature, (and by such resources we mean the fine quality of building stone), a lighthouse could be constructed on the point where the Miowera struck so that such accidents would be of the past and sea captains would not have the hours of anxiety that make young men old. If it be necessary to have a lighthouse halfway between the entrance to the channel and the dock let the old one remain where it is, but that fact should not prevent the erection of a new one, the expense of maintenance would be light compared with advan-

tages to all seafaring men. If the government had a million dollar reserve fund it might copy New York City in its expenditures after the fashion of the Bartholdi Statue and make one of some prominent politician and call it "Blank Enlightening his Constituents" instead of "Liberty Enlighten-ing the World," This would be too extravagant for this little government, and we would suggest a plain stone lighthouse painted with Hendry's Ready Mixed Paints, that are guaranteed to withstand the semitropical storms which we sometimes experience in Ha-

waii Nei. The long-looked for Pfluger arrived on Friday and with it there came to us fence wire both black and galvanized, in No. 5 of the former and Nos. 4. 5, 6 and 7 in the galvanized. For the past few weeks there has been something of a famine in the wire market and some people have been obliged to delay repairs and improvements until now. In connection with the large trade in wire which we have built up within the past few months we have revolutionized fence building on the Hawaiian Islands by introducing the "Improved Lock Fence" the materials for making which we sell with the regular wire used in ordinary fence building. The economy of a locked fence sticks out all over it like points on barbed wire. The expense of digging post holes and buying pensed with; in the new style, posts may be put fifty feet apart and the fence is stronger than the old style with posts every five feet. A whole herd of cattle may run pell mell against a locked fence and find themselves sprawling on the ground while the fence remains intact. In the matter of expense, it is cheaper than the old style for the first building, and repairs may be made by one man where the old style would require two or three. Ouite a number of managers of plantations are using our

coils of wire by the "Pfluger." We've had opinions from people to whom we sold tons of salt verifying everything we said in our advertisement a week or two ago. It is the best sold here for any purpose to which coarse salt may be put.

methods of fence building and

the demand will increase with

the arrival of the thousands of

The advance guard of the rainy season has made its appearance in the frequent showers we are having during the day and night. This means that animalculæ from the hills and valleys on Oahu are going to breed in the water and unless the people use proper care with the water they will be taken into the stomach to mingle with other disease germs,

You may boil it, and stew it or do what you will, But the wriggling baceili will hang fround it still,

and the only way to get rid of the things and have absolutely pure drinking water, whether city or artesian, is to use an "Improved Natural Stone Filter." We have them in various sizes from a gallon up to six or eight and the size governs the price.
